

# FLOWER ARRANGING

A VOCABARET SPECIAL by ADRIAN HOAD-REDDICK

Write a type of a flower in each set of blanks—from left to right, one letter per blank—to complete a longer word. For example, given the pattern 'F \_ U \_ D \_ \_', you would insert 'LILY' in the blanks to spell 'FLUIDLY'. If you can't think of a word with the pattern given, try planting buds in the blanks to see if one of them blossoms into a word.
